Description

When shopping for suspension lift kits, it's always best to stick with the popular brands. The last thing you want is some fly-by-night parts between you and the off-road terrain below. Our suspension kits are two of the top quality brands, Old Man Emu and ARB.

A suspension lift is a modification, often done to Jeeps, trucks, SUVs and offroad enthusiasts to raise the ride height of their vehicle. Suspension lifts (also referred to as lift kits or leveling kits) enable steeper approach, departure, and breakover angles, higher ground clearance, and helps accommodate larger wheels and tires.
